Revision 07 (10/97)

Form G
Radioactive Waste DIsposal Form

RS - 19g
Proc. 9290, 9501

General Instructions:

1. Do not mix different waste forms together. Keep dry, liquid, and scintillation vials separate.
2. Do not mix short half-life (< 30 days) waste with long half-life (> 30 days) waste.
3. Entries are to be made on this form each time waste is placed in the container.
4. Use a separate copy of this form for each container.
5. Sample waste descriptions: paper, plastic, glass, acqueous waste, source, biological waste (specify), hazardous chemical waste (specify chemical and quantity), etc.
   Note: Prior permission is needed from the Nuclear Safeguards Comittee for biological or chemical wastes
6. Call (404) 894-3605 by Tuesday at 4:00 to schedule a waste pickup for that week.

For ORS Use Only: Package ID Number: W __ __ - __ __ __ - __ __
